There is a global shortage of laptops because of the lockdowns and other global factors caused by the Covid-19 pandemic. Therefore, you would be wise to order your laptop in good time for the commencement of your studies in 2021. We are laptops supply experts and we understand the differences in quality. We know what is and what isn't a good laptop brand and we supply only brands that will not cause problems for students during online learning, when writing tests and during exam time.

We offer a guaranteed replacement in certain instances, as well as 1-2 year warranty. We also offer an affordable tracking system option and insurance for your device.

The following brands and minimum specifications are offered:
